Mr. Marc Nelson
U.S. Geological Survey
Conservation Division
P.O. Box 26124
Albuquerque, NM 87125

Dear Mr. Nelson:

Enclosed is a preliminary copy of the final report for the Jackpile-Paguate area. We regret any inconvenience caused by its tardiness. However, exploration of answers to the questions you posed required additional, in-depth analysis.

The copy you receive should be considered to be a draft, probably containing typos and other errors. We send it in this condition in the interest of expediency. Dr. Jobst has not reviewed this draft, since he is on sick leave today.

Again, we offer our apology for your inconvenience.

Sincerely,

L. G. Sasso
for
